Al Farida Ice is the unique choice that provides you with a comprehensive palette of engineering solutions in the world of air conditioning and refrigeration

We offer unique solutions that create a comprehensive range of engineering solutions in the world of heating, ventilation, and air conditioning. Our innovative designs include sandwich panel constructions, and advanced units of industrial refrigeration and rapid freezing rooms, in addition to providing all the essential materials such as the coating for evaporator units, motor winding, and control panels that offer complete control over electrical lines. We don't just stop at providing these services; we also offer maintenance services carried out by skilled professionals who are well-versed in all mechanical details alongside complete overhaul operations. Therefore, make us your technical partner that meets your expectations and creates a balance for you in the world of heating, ventilation, and air conditioning according to the highest standards

# About Us

in the 2010 Al-Farida Ice Company has emerged in ,2010 Founded in Kingdom of Saudi Arabia to provide integrated engineering solutions for the general contracting sector, as well as the government and private sectors, specializing in the installation of refrigeration rooms, freezing rooms, and industrial and commercial refrigeration warehouses. Additionally, with an extensive history and exceptional expertise in refrigeration and freezing technologies, the company excels in providing outstanding services in the field of industrial display refrigerators

The company's engineering and technical teams form a formidable entity, consisting of a unique and carefully selected group. They collaborate seamlessly to efficiently and professionally meet our clients needs and achieve the goals of all projects. This synergy has empowered the company to advance the technology it employs and deliver services and consultations at the highest levels of quality. These qualities make Al-Farida Ice Company a reliable partner for its clients across various fields, whether in supply and installation or in the management and maintenance of projects

We offer comprehensive, periodic, and instant maintenance services for refrigeration and freezing chambers, as well as all compressor components (compressors). Additionally, we provide maintenance for control system malfunctions and offer technical support around the clock by highly trained professional technicians

## **Vision**

We aspire to achieve a unique breakthrough in the field of air conditioning and cooling, adding real value to all the projects we undertake. We also look forward to staying at the forefront of the industry and continuing to achieve our ongoing successes

## **Vision**

Our mission is to embody uniqueness and innovation as indispensable elements of our identity. With determination, we aim to leverage our rich history of experiences and the enlightenment from our knowledge, utilising the latest technological advancements to deliver the highest global standards of quality in every aspect of our work

# Objectives

## 01

### Continuous Improvement of Service Quality:

Al-Farida Ice Company is earnestly committed to continuous improvement in the quality of services. The primary focus is on sustainable development and comprehensive enhancement of the quality of services provided to its customers. The company achieves this by adopting best practices and standards in its field, incorporating the latest technological innovations to ensure outstanding and superior performance

## 02

### Enhancing Maintenance Supervision:

Special attention is dedicated to ensuring maintenance services to achieve continuous ٧٢٪ operational efficiency. This is manifested in our rigorous dedication to monitoring and organising maintenance operations throughout the day, leveraging our exceptional customer service team. This positively contributes to improving customer satisfaction and meeting the needs of beneficiaries consistently and effectively

## 03

### Providing After-Sales

### Service:Improvement of Service Quality:

Al-Farida Ice Company is committed to providing after-sales service, focusing on product quality control and providing the necessary information and training for the team. In addition to offering strong warranties with regular maintenance, the company provides effective technical support with a quick response to customer needs. Product development programs also contribute to improving the customer experience and building relationships based on trust and satisfaction

## 04

### Project Completion According to Timetables:

We diligently aim to achieve project completion according to agreed-upon schedules without compromising efficiency and outstanding performance. We strive to ensure the precise, efficient, and trustworthy execution of all tasks

# Beneficiary Industries

## Food factories and production lines

This category is crucial in industries like manufacturing, where maintaining specific low temperatures is essential for ensuring optimal product quality. It includes aspects such as food production lines and continuous operational systems throughout the day

## Mosques

Endowments and mosques hold a prestigious position among the beneficiary categories of Al-Farida Ice. Prominent projects are regularly and consistently implemented in these spaces

## Malls and Commercial Shops

These vibrant places that attract visitors around the clock must have comfortable and pure atmospheres. Achieving this goal is one of the most important challenges that we strive diligently to accomplish at Al-Farida Ice

## Educational Institutions

Our dedication to providing a healthy and safe educational environment is one of our top priorities. We are committed to delivering superior services to educational institutions, including schools and universities. Our commitment is evident in achieving this goal by providing the best solutions and services that ensure a stimulating and pure learning environment for students and teachers

## Companies and Organizations

We pay great attention to meeting the needs of companies and organizations. We strive earnestly to provide the best services and solutions that contribute to improving their performance and enhancing their success

# Services

01

## Refrigeration and Freezing Room Setup

At Al-Farida Ice, we offer complete services in air conditioning and freezing. This includes supplying, installing, and proactively maintaining systems. Our team of skilled engineers and technicians, trained in the latest technologies, focuses on providing regular maintenance to ensure top-notch system performance and efficiency

02

## Sandwich Panels

The "Sandwich Panel" is a game-changer in civil engineering, blending strength with a sleek look. It consists of two sturdy metal layers and a middle layer for heat and sound insulation. Ideal for various buildings and projects, these panels redefine construction aesthetics

03

## Fast Freezing Units

Keeping pace with food technology, our fast-freezing units preserve food quality by freezing it rapidly. These units are a must for the future of the food industry, ensuring efficiency and quality in the world of frozen foods
